Dear Sir,

The 43rd Division Baseball Team is organized now, and ready to accept any night games you might consider. This team is composed of players who prior to coming into the service played semi-professional or professional baseball.

This office is in the process of making arrangements for the use of the stadium in the city of Blackstone, and we are almost assured of its use, for whatever dates we desire.

If you have any open dates, we would be glad to accept them on the basis of home and home. Daylight games as well as night games will be considered.

An early reply will be appreciated.

Yours for a successful season.
