ADDITIONAL NOTES	A huge custom design. In the basement a complex 2 coal furnace set up. Girls' Toilet and Boys' Toilet Rooms on either side of the fuel room. "Domestic Science" and "Manual Training" rooms. 1st floor is five classrooms around a central hall. Second floor five rooms around a central hall. Custom window work. Rendering is with red brick drawn in. Brick face with concrete cement stucco. Huge two-story front porch with 20' Corinthian wood columns leading to balustrades. Tiered slate roof. Terra cotta gutters. Custom HVAC page. This is a seminal design, now perfected on a grand scale. "Charles M. Robinson, School Architect, 10th and Main Sts., Richmond, VA."
