Jan 25th

Senator Ferguson

Dear Senator

I notice that there has been a bill introduced
in the legislature for a Carillon instead of
what the Committee selected.

The sentiment here is overwhelmingly for the
Carillon. Do what you can for it.
I hope your body will not sacrifice our
roads in which depend our development
as a state for the higher institute of
learning, which should be largely self
supporting from the charges to students.
Va is lagging behind our neighbor states
which should not be.

With kind regards

C. R. Sanderson
In Mr Bruch in interest of above
